Chemtrec: 800-424-9300

# **Section 2: HAZARDS IDENTIFICATION**

This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR) and the SDS contains all the information required by the HPR

# **<u>Classification</u>**

| Skin corrosion/irritation                          | Category 2  |
|--|-------------|
| Serious eye damage/eye irritation                  | Category 2  |
| Carcinogenicity                                    | Category 1A |
| Reproductive toxicity                              | Category 2  |
| Specific target organ toxicity (single exposure)   | Category 3  |
| Specific target organ toxicity (repeated exposure) | Category 2  |
| Flammable liquids                                  | Category 2  |

# Label elements

Signal word

DANGER

# HAZARD STATEMENTS

Highly flammable liquid and vapor Causes skin irritation Causes serious eye irritation May cause cancer Suspected of damaging fertility or the unborn child May cause respiratory irritation May cause damage to the following organs through prolonged or repeated exposure: Ears

#### PREVENTION

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/protective clothing/eye protection/face protection. Wash face, hands and any exposed skin thoroughly after handling. Do not breathe dust/fume/gas/mist/vapors/spray. Use only outdoors or in a well-ventilated area. P210 - Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ ventilating/ lighting/ equipment. Use only non-sparking tools. Take precautionary measures against static discharge.

#### RESPONSE

IF exposed or concerned: Get medical advice/attention.

Eyes

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Skin

If skin irritation occurs: Get medical advice/attention. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/ shower. Wash contaminated clothing before reuse.

Inhalation

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

#### Ingestion

Do NOT induce vomiting. IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.

Fire

In case of fire: Use CO2, dry chemical, or foam for extinction.

### STORAGE

Store locked up. Store in a well-ventilated place. Keep container tightly closed. Store in a well-ventilated place. Keep cool.

#### DISPOSAL

Dispose of contents/containers in accordance with local regulations.

# OTHER HAZARDS

Not applicable.

#### UNKNOWN ACUTE TOXICITY

0% of the mixture consists of ingredient(s) of unknown toxicity.

# Section 3: COMPOSITION/INFORMATION ON INGREDIENTS

| Chemical Name                          | CAS No     | weight-%  |
|--|------------|-----------|
| Benzene, 1-chloro-4-(trifluoromethyl)- | 98-56-6    | 10 - 30 * |
| Titanium dioxide                       | 13463-67-7 | 7 - 13 *  |
| Acetone                                | 67-64-1    | 5 - 10 *  |

| Xylenes              | 1330-20-7  | 5 - 10 *    |
|----------------------|------------|-------------|
| Ethylbenzene         | 100-41-4   | 0.5 - 1.5 * |
| Methyl n-amyl ketone | 110-43-0   | 0.5 - 1.5 * |
| Quartz               | 14808-60-7 | 0.1 - 1 *   |
| Styrene              | 100-42-5   | 0.1 - 1 *   |

\*The exact percentage (concentration) of composition has been withheld as a trade secret.

# Section 4: FIRST AID MEASURES

#### **First Aid Measures**

#### **General advice**

IF exposed or concerned: Get medical advice/attention

#### Eye contact

If eye irritation persists: Get medical advice/attention IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

#### **Skin Contact**

If skin irritation occurs: Get medical advice/attention IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/ shower Wash contaminated clothing before reuse

#### Inhalation

IF INHALED: Call a POISON CENTER or doctor if you feel unwell

#### Ingestion

Do NOT induce vomiting IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell

#### Most important symptoms and effects, both acute and delayed

| n available. |
|--------------|
|              |

#### Indication of any immediate medical attention and special treatment needed

| Note to physicians | Treat symptomatically. |
|--------------------|------------------------|
|                    |                        |

# Section 5: FIRE FIGHTING MEASURES

| Flammable properties  | Flammable liquid.                                      |
|---|--|
| flash point   | -4 °F / -20 °C   |
| Upper flammability limit:   | No information available                               |
| Lower flammability limit:   | No information available                               |
| Autoignition temperature  | No information available                               |
| Explosion data<br>Sensitivity to Mechanical Impact<br>Sensitivity to Static Discharge | No information available.<br>No information available. |

#### Suitable extinguishing media

Dry chemical, CO2, water spray or alcohol-resistant foam.

| Γ | Not to | be used | for sat | ety rea | asons: | Strong | water | jet |  |
|---|--------|---------|---------|---------|--------|--------|-------|-----|--|
|   |        |         |         |         |        |        |       |     |  |

| Hazardous combustion products | Carbon monoxide. Carbon dioxide (CO2). |
|-------------------------------|--|
|-------------------------------|--|

#### Specific hazards arising from the chemical

Burning produces heavy smoke. Fire may produce irritating and/or toxic gases. In the event of fire and/or explosion do not breathe fumes.

#### Special protective equipment for fire-fighters

Wear self-contained breathing apparatus and protective suit. Cool containers with flooding quantities of water until well after fire is out. Do not allow run-off from fire-fighting to enter drains or water courses.

# Section 6: ACCIDENTAL RELEASE MEASURES

#### **Personal precautions**

Avoid breathing vapors or mists. Remove all sources of ignition. Use personal protective equipment as required. Avoid contact with skin, eyes or clothing. Keep people away from and upwind of spill/leak. Evacuate personnel to safe areas. Take precautionary measures against static discharges.

#### **Environmental precautions**

Do not allow into any sewer, on the ground or into any body of water. If the product contaminates lakes, rivers or sewage, inform appropriate authorities in accordance with local regulations. Prevent further leakage or spillage if safe to do so. Local authorities should be advised if significant spillages cannot be contained.

#### Methods for containment

Prevent further leakage or spillage if safe to do so.

#### Methods for cleaning up

Dispose of waste product or used containers according to local regulations. Clean with detergents. Avoid solvent cleaners. Dam up. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Pick up and transfer to properly labeled containers. Clean contaminated surface thoroughly.

# Section 7: HANDLING AND STORAGE

# Advice on safe handling

Prevent the creation of flammable or explosive concentrations of vapor in air and avoid vapor concentration higher than the occupational exposure limits. Operators should wear anti-static footwear and clothing and floors should be of the conducting type. Use personal protection recommended in Section 8. Never use pressure to empty container. Comply with the health and safety at work laws. Prevent product from entering drains. Vapors are heavier than air and may spread along floors. Vapors may form explosive mixtures with air. Use only with adequate ventilation. Do not breathe dust/fume/gas/mist/vapors/spray. Use only in well-ventilated areas. Keep away from heat, sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and static electricity). Take precautionary measures against static discharges. Use spark-proof tools and explosion-proof equipment. All equipment used when handling the product must be grounded.

#### **General Hygiene Considerations**

When using do not eat, drink or smoke. Wash contaminated clothing before reuse. Avoid contact with skin, eyes or clothing.

#### Storage Conditions

Keep/store only in original container. Store in accordance with local regulations. Keep unauthorized personnel away. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Keep container tightly closed in a dry and well-ventilated place. Keep tightly closed in a dry and cool place.

# Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Exposure Guidelines

#### Exposure Limits

If S\* appears in the OEL table, it indicates this chemical contains a skin notation.

### **Engineering Controls**

Ensure adequate ventilation, especially in confined areas. Provide local exhaust ventilation. In case of insufficient ventilation, wear suitable respiratory equipment.

#### Personal Protective Equipment

#### Eye/face protection

Wear safety glasses with side shields (or goggles).

# Hand Protection

There is no one glove material or combination of materials that will give unlimited resistance to any individual or combination of chemicals. Ensure that the breakthrough time of the glove material is not exceeded. Refer to glove supplier for information on breakthrough time for specific gloves. The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed. Gloves should be replaced regularly and if there is any sign of damage to the glove material. Always ensure that gloves are free from defects and that they are stored and used correctly. The performance or effectiveness of the glove may be reduced by physical / chemical damage and poor maintenance. Wear protective gloves. Skin and body protection

Wear suitable protective clothing. Personnel should wear anti-static clothing made of natural fiber or of high temperature resistant synthetic fiber.

# **Respiratory protection**

When workers are facing concentrations above the exposure limit they must use appropriate certified respirators

#### **Thermal Protection**

No information available

### Environmental exposure controls

Do not allow into any sewer, on the ground or into any body of water. Local authorities should be advised if significant spillages cannot be contained.

# Section 9: PHYSICAL AND CHEMICAL PROPERTIES

#### Information on basic physical and chemical properties

| Physical state                | liquid                   |
|-------------------------------|--------------------------|

#### Numerical measures of toxicity - Product Information

#### The following values are calculated based on chapter 3.1 of the GHS document .

| ATEmix (oral)                 | 35343  | Mg/kg |
|-------------------------------|--------|-------|
| ATEmix (dermal)               | 17573  | Mg/kg |
| ATEmix (inhalation-dust/mist) | 16.5 m | ng/l  |
| ATEmix (inhalation-vapor)     | 121 m  | g/l   |

**UNKNOWN ACUTE TOXICITY** 0% of the mixture consists of ingredient(s) of unknown toxicity.

#### Delayed and immediate effects as well as chronic effects from short and long-term exposure

#### Carcinogenicity

According to IARC, Volume 93, no significant exposure to primary particles of titanium dioxide is thought to occur from use in paints since the pigment is bound to other materials. According to IARC, Volume 93, no significant exposure to primary particles of carbon black is thought to occur from use in paints since the pigment is bound to other materials.

| Chemical Name                  | ACGIH | IARC     | NTP                    | OSHA |
|--------------------------------|-------|----------|------------------------|------|
| Titanium dioxide<br>13463-67-7 |       | Group 2B |                        | Х    |
| Ethylbenzene<br>100-41-4       | A3    | Group 2B |                        | Х    |
| Quartz<br>14808-60-7           | A2    | Group 1  | Known                  | Х    |
| Styrene<br>100-42-5            |       | Group 2B | Reasonably Anticipated | Х    |

ACGIH (American Conference of Governmental Industrial Hygienists)

A2 - Suspected Human Carcinogen. A3 - Animal Carcinogen.

IARC (International Agency for Research on Cancer)

Group 1 - Carcinogenic to Humans. Group 2B - Possibly Carcinogenic to Humans.

NTP (National Toxicology Program)

Known - Known Carcinogen. Reasonably Anticipated - Reasonably Anticipated to be a Human Carcinogen.

OSHA (Occupational Safety and Health Administration of the US Department of Labor)

X - Present.

Skin corrosion/irritation Causes skin irritation

Serious eye damage/eye irritation Causes serious eye irritation

Skin sensitization Not applicable

Respiratory sensitization Not applicable

Germ cell mutagenicity Not applicable

Carcinogenicity May cause cancer

Reproductive Toxicity Suspected of damaging fertility or the unborn child

Specific target organ toxicity (single exposure) May cause respiratory irritation

Specific target organ toxicity (repeated exposure)

May cause damage to the following organs through prolonged or repeated exposure: Ears **Aspiration hazard** Not applicable

Aspiration nazard Not applicable

# Section 12: ECOLOGICAL INFORMATION

#### Ecotoxicity

Environmental precautions

Prevent product from entering drains.

#### Persistence and degradability No information available

Bioaccumulation No information available

Mobility No information available

Other adverse effects

No information available

# Section 13: DISPOSAL CONSIDERATIONS

# Waste from residues/unused products

Disposal should be in accordance with applicable regional, national and local laws and regulations

**Contaminated packaging** 

Improper disposal or reuse of this container may be dangerous and illegal.
