#3534 Trim Paint – Semi-Gloss Black (Aerosol)	15oz. 6cs

DESCRIPTION:

5 STAR ADVANTAGE's Trim paint is formulated using an acrylic resin that resists fading from ultraviolet light and degradation from chemicals. Spray like a professional without the equipment, prep time, cleanup, or waste. Several light coats produce a better finish than one heavy coat. A heavy coat applied over an enamel may cause lifting. Bare surfaces or rusted metal surfaces should first be primed with the 5 STAR ADVANTAGE #3525 Sandable Primer.

FEATURES:

Large Fan Spray Head Dry to the touch in 20 mins. Resists fading from UV light & chemicals

SUGGESTED USES:

Body Panels Engine Parts

Metal Structures Aviation Parts Heavy Machinery

DIRECTIONS:

- 1. Surface must be clean, dry and free of rust before painting. Protect surrounding areas from spray mist. For best results, use when can is between 50°F and 90°F (10°C and 32°C).
- 2. Shake can at least one minute after rattle is heard and occasionally during use.
- 3. Spray surface with steady even strokes at a distance of 8 to 10 inches (20 to 25cm). Several light coats give a better finish than one heavy coat.
- 4. If clogging develops, turn sprayhead 1/4 turn or remove and clean sprayhead slot. Do not stick pin or other objects into can opening. With can and sprayhead pointed away from you, reinsert sprayhead with a gentle twisting motion.
- 5. To clear sprayhead for future use, turn can upside down and spray for 3 seconds. Completely empty cans may be recycled or disposed of with regular trash. Dispose of partially empty cans responsibly. DO NOT incinerate or compact.
