

**5 STAR ADVANTAGE AUTOBODY PRODUCTS**  
**TECHNICAL DATA INFORMATION**  
**DATED: SEPTEMBER 2019**

**PRODUCT NUMBER**

**#5812 - Grime Zapper**

(Detail Clay Light Cut) 200g 1/box  
Use for light to medium contamination.

**#5813 - Grime Zapper**

(Detail Clay Medium Cut) 200g 1/box  
Use for medium to heavy contamination.

**FEATURES:**

***ZAP Dirt, Overspray, Sap, Residue, Tar and Grime Quickly.***

***Easy to use and form. No sticky hands! Convenient storage case.***

***Available in 2 grits: Light & Medium***

**DESCRIPTION:**

***GRIME ZAPPER Detail Clay*** easily and safely removes contaminants like dirt, overspray, sap, residue, tar and road grime. Use (Light Cut #5812 or Medium Cut #5813) depending on the contamination. Use over and over for a showroom shine or clay lubricant. Store in our handy case! Non-sticky formulation avoids residue transfer to painted surface and hands. **NOTE: Plain water is not an adequate lubricant.**

**DIRECTIONS:**

Thoroughly wash vehicle free of dust, sand, dirt and other loose contaminants. Working in a small area, spray clay lubricant directly onto painted surface. Mold #5812/#5813 into a pancake shape. Using light pressure, rub back and forth in a "cut the grass" pattern. Repeat until you can feel that surface is contaminant free. Wipe/hose away the clay lubricant and dry using a clean #5811 Microfiber towel. Rinse clay frequently during use to avoid grime build up on surface of the bar. Knead clay into a free surface periodically during use, as well. For best results use clay on a cool surface and never in direct sunlight.

**WARNINGS:**

If dropped on ground, clay bar can pick up grime that will likely cause scratches in the paint if used afterwards. Do not use on paint that is fresh or not fully cured. Always test in an inconspicuous area prior to treating entire surface.  
**KEEP AWAY FROM CHILDREN. NOT A TOY.**

**SEE PRODUCT LABELS FOR ADDITIONAL SAFETY INFORMATION.**
