PREMIUM ADHESION PROMOTER

5 STAR XTREME ADHESION PROMOTER is an all-purpose clear primer that improves adhesion of enamel and lacquer topcoats to nearly any surface, including most plastics and chrome. It is fast drying and provides superior adhesion on all flexible and rigid plastic parts. Features a sprayhead for spray gun-like application. Topcoat after 10 minutes, and before 30 minutes for maximum adhesion.

SUGGESTED USES:

- | | | |
|----------------------|-----------------|-----------------|
| • Glass | • Chrome | • Ceramic/Tile |
| • Vinyl | • Bumpers | • Fiberglass |
| • Aluminum | • Polypropylene | • Polycarbonate |
| • Molded trim pieces | | |

CAUTION: May attack some types of soft plastics.

DIRECTIONS: (1.) Surface must be clean, dry and free of rust before painting. Protect surrounding areas from spray mist. For best results, use when can is between 50°F and 90°F (10°C and 32°C).

(2.) Shake can at least one minute after rattle is heard and occasionally during use.

(3.) Spray surface with steady even strokes at a distance of 8 to 10 inches (20 to 25cm). Several light coats give a better finish than one heavy coat.

(4.) If clogging develops, turn sprayhead 1/4 turn or remove and clean sprayhead slot. Do not stick pin or other objects into can opening. With can and sprayhead pointed away from you, reinsert sprayhead with a gentle twisting motion.

(5.) To clear sprayhead for future use, turn can upside down and spray for 3 seconds. Completely empty cans may be recycled or disposed of with regular trash. Dispose of partially empty cans responsibly. DO NOT incinerate or compact.
