5 STAR XTREME WARRANTY PROCEDURES

CLAIM PROCEDURES:

1. In the event of any defect to be covered by the 5STX warranty, the customer must return the vehicle to the collision repair shop that performed the repairs for a complete inspection of the alleged defect. The shop owner or manager and the authorized jobber or 5STX representative should conduct the inspection. Final approval of the claim or settlement shall be at the sole discretion of the 5STX Product/Technical Manager. Under no circumstances shall the customer be entitled to withhold any payment to the collision repair shop for work performed, and in the event of incomplete or non-payment, the warranty shall be deemed null and void.
2. If it is determined at the time of inspection that the claim is justified, the collision repair shop will be reimbursed for material and labor charges only with supported receipts, based on the hourly rate in effect at the time the original work was performed. Reimbursement will be in the form of a 5STX merchandise credit issued through the authorized 5STX distributor to the collision repair shop. Material credit issued to the shop will be at the current Refinisher price.
3. If it is determined at the time of inspection that the defect was caused by circumstances excluded from the warranty, 5 STAR XTREME shall not be liable for any repairs on the vehicle.
4. No claim will be settled without the prior written approval of the 5STX Product/Technical Manager.

The above constitutes the sole liability and responsibility for 5 STAR XTREME and the sole remedy for the customer, under any warranty contained in the 5STX Limited Lifetime Warranty Agreement.
