

# Quick-N-E-Zee™ Instant Tab Repair

## UV Light Activated

5 STAR ADVANTAGE Instant Tab Repair Patch is an extremely durable fiberglass reinforced polyester with excellent adhesion properties for long lasting repairs. It makes repairing easy and effortless as well as keeps costs down. This unique one-of-a-kind product, comes out of the package as pliable as a band-aid, ten minutes later with Sun or UV light it turns hard as steel. After it's done curing, you can drill, sand and/or paint it. The adhesive is non-toxic and will not irritate or harm your skin. It's waterproof, weather resistant, rot resistant, rust resistant, UV resistant, non-flammable, fire resistant, and temperature resistant (-40°C to 200°C). There's no shrinkage or expansion during application or after curing.

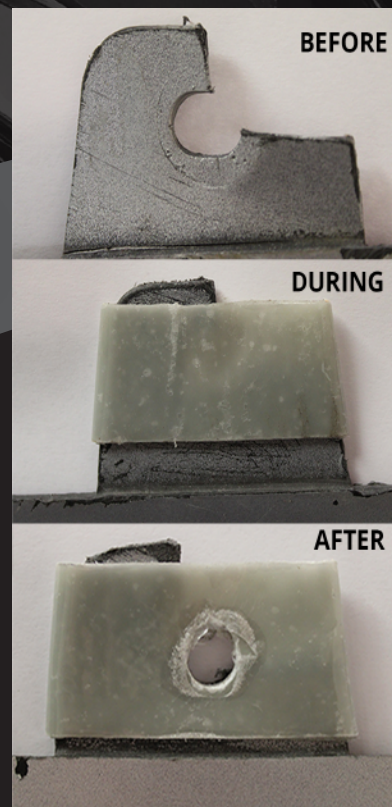

**Cures rock solid in  
Sunlight in 10 mins!**  
**No tools required.**  
**Fast-Easy-Cheap**  
**Bumper Tab & Slot**  
**repairs.**

### APPLICATION

1. Clean & dry surface. Remove patch from bag and remove white backing.
2. Apply patch to repair area with sticky side down and press all sides firmly.
3. Expose to sun or use a UV flashlight. Cure for 10 minutes. Patch will be rock hard and can be drilled, sanded and/or painted.
